| PROJECT TITLE	Project - Digital Naturalist – AI Enabled tool for Biodiversity Researchers
TEAM ID	PNT2022TMID00699

BUILDING THE HTML PAGE:

The home page looks like this. When you click on the button "Click here!", you'll be redirected to the predict section.

In this section you can choose the image you want to predict and then click on predict to get the predictions.

By clicking "ABOUT US" on the nav bar, it redirects you to this page.

Digital Naturalist – AI Enabled tool for Biodiversity Researchers

This project is a tool that predicts the uploaded flora and fauna image of the user and displays a description about it. It benefits the inquistive naturalists and influencers to know more about the environment.
